

Health scans for direct immigrants from other countries

Health scans for direct immigrants aged 18 years and above to Region Jämtland/Härjedalen

In Region Jämtland/Härjedalen, as a direct immigrant from another country, we offer you a health scan that, if necessary, leads to a free health interview and testing. The purpose of the health scan is to offer you the necessary care and protection against infection, which is good for both you and society. During a health interview, healthcare confidentiality applies and the result does not affect any possible permit process.

Name:		Personal ID number:
Address:	Place of residence:	Telephone no.:
Language:	Other information:
